

FUTURA INDUSTRIES
ALUMINUM EXTRUSIONS

Hi. We're Futura.

We deliver custom aluminum extrusions—and a higher grade of service. We're glad that you found us. Read on to learn a little about who we are, and what we can do for you.

We don't expect your project to fit into any particular mold or industry.

With our focus on flexible manufacturing, we deliver custom solutions that fit your precise aluminum extrusion needs—whether it's a common large profile or the most exacting thin-walled tubing.

In fact, you can find Futura custom solutions just about everywhere you look.

From commercial flooring to pleasure boating to solar paneling, a wide range of products and industries rely on our made-to-order aluminum extrusions.

With our comprehensive services, you get true one-stop shopping.

From design and engineering all the way to assembly and packaging, Futura's start-to-finish services cover all your aluminum extrusion needs—so you can minimize administrative headaches and maximize product quality.

With our Quality Pledge, you get flawless, on-time results.

Every team member at Futura is committed to improving company and factory performance—and engineering your success. And through our Quality Pledge, we ensure that we meet this goal, each and every day.

And with our "no-rules" philosophy, you won't get bombarded with regulations and roadblocks.

At Futura, we don't force customers to comply to our way of business. Instead, we listen carefully to your business challenges and work with you to develop customized solutions that meet your unique needs.

It's all part of our commitment to responsive, reliable service.

As a responsive company, we work tirelessly to fulfill your precise needs. And as a reliable partner, we always keep our promises to you. This company-wide dedication to customer service is what keeps customers coming back to Futura time and time again.

And it's our commitment to you.

Get your needs met now!

Relax, you've found the aluminum extruder who can get your job done, your way. Just give us a call and let us know how we can help you.
